

What have you done for me lately? A valid question when you measure the value of your ASA-NM membership. Here is the answer:

The American Subcontractors Association is the only association whose sole purpose is educating, protecting the rights of and advocating for subcontractors. ASA-NM fosters, promotes, encourages and develops the best interests of subcontractors, specialty contractors and vendors for the construction industry in conjunction with construction industry partners. As part of our mission, it supports community organizations and helps its members to operate more efficiently. Fighting for the rights of subcontractors is an expensive and time consuming endeavor and only strong organizations have an impact. Membership supports the association's strength in numbers; strength in numbers wins the fight. #ASANMSubs
